

Fresca

Saddleworth's new Italian Restaurant, just opened in Delph

A new and exciting restaurant has recently opened in Saddleworth! Fresca in Delph is a family friendly Italian restaurant with a contemporary, yet traditional, theme. Situated in Gatehead Business Park, the location is great for parking and looks out onto trees on both sides.

Fresca opened its doors to the public on 1st June. The modern building has been completely refurbished with stylish décor and the kitchen is open so that customers can see the chefs at work. It has an authentic large pizza oven and an Italian pizza chef. Several other staff are also Italian, although the restaurant is run by local residents - the manager is Charlotte Wharton, who has previously run other Saddleworth venues.

The varied menu has not just an Italian, but

also a broader Mediterranean theme. All food is freshly prepared and cooked in their kitchen (certainly no microwaved meals here!).

Fresca boasts a wine list from various countries and regions. They use a wine importer who specialises in small family owned wineries on the continent and many of the wines on their list are award winners.

Fresca can seat up to 130 people and is aiming for a buzz-y atmosphere - what Italy is all about! Family friendly in the way continental restaurants are, Fresca is brilliant for couples and groups of friends too.

So whether Saddleworth skies are blue or grey this summer, get along to Fresca for a real feel of the Mediterranean—great food, fine wine and a fabulous new local venue.
